- **YFEL 2024 outreach & graduation activities (year-long, culminating late 2024).**

YFEL is KU's flagship sustainability **outreach** program; throughout 2024 it ran engagement activities (talks, panels, site visits) and culminated with a graduation recognizing **24 participants** whose projects and events focused on clean energy and sustainability. KU's page notes YFEL's role and highlights the Sustainability Days as a key public event. More details here: [YFEL Program](#)

- **Energy Transition public information hub / events (2024).** KU's events portal maintained an **Energy Transition** section explaining renewable sources and decarbonization topics and aggregating related events—used to promote and signpost public-facing sessions through 2024.
